

CIPM

CERTIFIED INTERNATIONAL PROJECT MANAGER

PROGRAM OVERVIEW

Project Management is growing exponentially and it is now used in virtually all industries, such as government, healthcare, telecom, IT, education and banking. Effective project management is how these organizations streamline to improve productivity.

As businesses are restructured, project managers take over many responsibilities. Expertise in project management is a source of security, prosperity and power to many companies.

OBJECTIVES

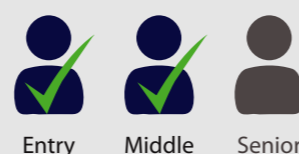

- Appreciate the benefits of accurate Project Management
- Master the art of efficient project delivery
- Use project analysis as a key business driver
- Comply with major international Project Management standards
- Successfully determine the appropriate technological solutions for projects
- Develop a comprehensive tool-kit for successful Project Management
